## DETAILED ACTION

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Grier et al. (US 6,416,190 B1).

Regarding claims 1 and 5, Grier discloses an apparatus for handling a minute object by using an optical tweezers, comprising: a light source (12 of Fig. 5); a first base to form a hologram with light emitted from the light source (40 of Fig. 5); and a second base that holds a liquid including a minute object (16 of Fig. 1), wherein the hologram formed in the liquid on the second base is used as an optical tweezers to handle the minute object in the liquid (line 4 to line 7 of Col. 5).

Regarding claim 2, Grier discloses means for optically enlarging or reducing the optical tweezers to capture the minute object (line 52 to line 53 of Col. 7).

Regarding claim 3, Grier discloses a plurality of optical

tweezers being formed (line 40 to line 44 of Col. 10).

Regarding claim 4, Grier discloses a base for forming the optical tweezers being exchangeable (i.e., exchangeable with another DOE).

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
